input.1p

Java

```java
package q10765;

public class PrintMe {
    public static void main(String[] args) {
        String text1 = "Ganga Nile";
        String text3 = "Amazon";

        System.out.println(text1);
        System.out.println(text3);
        System.out.println("END");
    }
}

```
